Improper Exception Handling

android/app/src/main/java/com/reacttutorialapp/emulatorDetection/EmulatorDetectionModule.java

```
    };

    for (String sfile : files) {
      if (new File(sfile).exists()) {
        return true;

      }
    }
```

```
    };

    for (String sfile : files) {
      try {
        File f = new File(sfile);
        if (f.exists()) {
          return true;
        }
      } catch (Exception e) {
        return false;
      }
    }
```

Information Exposure Through an Error Message

android/app/src/main/java/com/reacttutorialapp/widget/eBizCardLarge.java

```
            InputStream in = new URL(url).openStream();
            bitmap = BitmapFactory.decodeStream(in);
        } catch (Exception e) {
            e.printStackTrace();
        }
    }
```

android/app/src/main/java/com/reacttutorialapp/sharedStorage/SharedStorageModule.java

```
        getCurrentActivity().getApplicationContext().sendBroadcast(intent);

    } catch (Exception e) {
        // Handle exceptions (optional)
        e.printStackTrace();
    }
}
```
